

Video of the Year

Below are the 2nd round nominations for Independent Video of the Year.

Using your knowledge and appreciation for independent music, please cast your votes for the three (3) nominations that most deserve to appear on the final ballot in this category. **Please return your ballot before close of business Thursday, May 3rd.**

Rank your selections in order noting that five (5) points will be awarded to your first choice, three (3) points will be awarded to your second choice, and one (1) point will be awarded to your third choice.

Send your ranked selections via email to jim.mahoney@a2im.org with the subject header A2IM Libera – Video of the Year Selections. Your selections will be confidential only to be seen by A2IM's president Rich Bengloff and vice president Jim Mahoney.

Each nominee was invited to create an Official.FM player to appear on the ballot for our nominating committee voters to use to hear music from or read about the nominees. Every player that we received appears on the ballot below. We did not receive players from every nominee but you'll see we did provide a link to each nominated video.

Thank you for agreeing to participate as a judge for the inaugural A2IM Libera Awards.

Please vote for whomever you wish but we hope in your voting you will consider two factors. The independent music label community and their artists represent a diverse community of music labels of different sizes, musical genres and geographic locations and we feel our nominees and award winners should reflect that diversity. Please consider that diversity in your judging. In addition we have indicated which nominees are A2IM members. Again, you are free to vote for whomever you wish, this is an open award process, but if you have "mental ties" in making your decision we hope you will break that tie by selecting the A2IM member nomination.

Artist Name: All That Remains
Track Title: Hold On
Label Name: Razor & Tie / Prosthetic
Video URL: [All That Remains](#)
